## Atlas Adhesive Tape

### **Cloth Gaffers Tape**

Cloth tape made from a non-reflective/dull finish vinyl coated cotton cloth with high tensile strength. It is tear able by hand. There are several different grades for various industries.

### **GT-6 Book Repair Tape:**

GT-6 is a self-wound, high tack, medium adhesion, cloth tape with a long lasting, non-oozing, adhesive. Gt-6 is typically used for book repair, binding, and pad headers. Standard widths: 1/2", 1"x 1 1/2", 2", 3" and 4".

### **GT6L, GT7L Turkey Call Tape**

These tapes are a high tack, high adhesion, cloth tape on a release liner with a special barrier coating that provides water resistance. It is commonly used to make Turkey Calls for the hunting industry. Rolls are sold to converters for slitting and die cutting, as well as pre-slit rolls 2" or 3" wide.

### **Gaffers Tape**

Gaffers tape is a semi-permanent, cloth tape used to secure wires and cables in audio, video, and lighting applications. It is used by musicians, D.J's, sound engineers, production, videographers, photographers, and stage performers. Gaffers tape is extremely useful for a variety of applications common to trade shows, conventions, and concerts. The tape can be torn by hand for ease of use and its dull finish prevents light reflection. When the tape is removed after initial application, it does not leave an adhesive residue.

**GT-6: Premium High Tack Gaffers Tape** is a high tack gaffers tape. The high tack works on a variety of surfaces including carpets and hard to stick to floors.

**Spike Tape** is a 1/2" wide Gaffers tape used to mark positions on floors, and is used as a thin identification tape.

### **Standard Colors:**

Black, White, Burgundy, Grey, Green, Blue, Red, Yellow, Brown, Tan, Electric Blue, Purple, Teal, plus Neon/Fluorescent: Yellow, Green, Orange and Pink.
