

Frost All Temp Hot Melt Adhesive

GENERAL CHARACTERISTICS

Channeled Resources' Frost All Temperature Adhesive is ideal for freezer grade applications down to -60 °F with a minimum application temperature of -8 °F. Excellent adhesion to polyolefin and paper substrates. Superb die-cutting capabilities.

Type	All Temperature Adhesive
Classification	Hot Melt
180 Deg Peel, SS, lb/in	2.6
Look Tack, SS, lb/in	5.2
Service Temp Range, °F	-60 to 147
Minimum Application Temp, °F	-8

TACK DATA

With high initial tack, Frost AT develops a strong bond between the label and its application surface, ensuring labels stay stuck.

180° Peel (lbs./in.)	
Stainless Steel	2.6
HDPE	2.1
Corrugate	1.4
